Re: Letter of Recommendation

Dear Sir/Ms:

It is with great pleasure that I write this letter of recommendation and praise for Tricia Mahoney. Through her companies PowerShe and StylishShe, Tricia has single-handedly transformed the lives of hundreds of women served through the Dress for Success Dallas Programs.

Tricia donated more than 1,000 pieces of new StylishShe clothing, coast to coast to help empower women to look their best as they begin their job search. The transformation of these women once they come in and are fitted in new clothing appropriate for the workplace, is just remarkable. These new garments help the women gain confidence by making them look and feel great. Their heads are held high. They feel better about themselves and are more confident when going on their job interviews. Tricia even came to our offices and spent hours personally fitting women in their new outfits.

Her books are a true inspiration for us all. Her message is powerful and positive. Each item of clothing has an inspirational quote on the tag as well. This is the kind of support that each and every one of us needs. Tricia is a true inspiration to women, me included. Once in a lifetime, you meet someone that just makes your life better by just being in it – Tricia is this person for me and all of us at Dress for Success Dallas.

Sincerely,

Janie Bordner  
Executive Director  
Dress for Success Dallas
